The following have been modified:

PWS

**PERFORMANCE WORK STATEMENT (PWS)
Hazmat Training Course, September - October 2017
US Army Camp Humphreys, Republic of Korea**

1. General: This is a non-personnel services contract to provide a thirteen-day Hazmat training course. The Government shall not exercise supervision or control over the contract service providers performing the services herein. Such contract service providers shall be accountable solely to the Contractor who, in turn is responsible to the Government.

1.1. Description of Services/Introduction: The contractor shall provide all instructors, transportation, tools, training materials, supervision, and other items necessary to perform duties defined in this Performance Work Statement. The contractor shall perform to the standards in this contract.

1.2. Background: The 718th Explosive Ordnance Disposal Company (EOD) is the assigned EOD response unit for all U.S. installations on the Korean Peninsula. As the EOD response company for Korea they require the training necessary to safely respond to all explosive hazard threats and munitions in their Area of Operation (AO).

1.3. Objectives: The 718th EOD request a contractor to provide HAZMAT technician level training IAW 49 CFR §1910.120 to minimize the risk of injury or death during explosive or other hazardous responses. Training will consist of the following:

- PROBOARD certification certificate
- An understanding of what hazardous substances are and the risks associated with an incident
- The ability to recognize the presence of hazardous substances in an emergency
- The ability to identify hazardous substances
- Knowledge of the basic hazmat hazards and risk assessment techniques
- Know how to select and use proper personal protective equipment
- A basic understating of hazardous material terms
- Know how to perform basic control, containment and/or confinement operations within the capabilities of the resource and personal protective equipment
- Know how to implement basic decontamination procedures

1.4. Period of Performance: The period of performance for instruction on-site at Camp Humphreys, Korea shall be for thirteen-days between September- October 2017. Training will not be conducted on the weekends and the method of training will be PowerPoint presentation, practical and a written exam.

1.5 Other: Instructors for this training course will not have access to any computer networks and will be escorted on-post to all training facilities as needed. Instructors will conduct Anti-Terrorism AT level one training and provide training certificates no later than 5-10 days prior to course start date. Prior to departure the unit Anti-Terrorism Officer (ATO) will provide instructors with an area of responsibility (AOR) specific awareness training as directed by AR 525-13 through email.

2. Contractor responsibilities:

- Provide a highly-trained professional instructors. Contractor shall provide text material, Power Point briefing / instruction for up to 45 attendees.
- Present this course at Camp Humphreys, Korea.
- Arrange travel - including lodging and transportation - from the contractor's home location to Camp Humphreys, and return to the contractor's home location.
- Present a thirteen-day (80 classroom hour) training course.
- Materials: The Contractor will provide the necessary training materials and exams to execute this training.

3. Government furnished materials and services:

3.1. Facilities: The Government will provide a classroom suitable for 45 attendees and audio-visual equipment for Power Point instruction at a training facility on US Army Camp Humphrey NLT 21 September 2017 to October 2017.

3.2. Utilities: The Government will provide the contractor all utilities in the training facility for the contractor to perform the tasks outlined in this PWS.

3.3. Equipment: The Government will provide all equipment to execute this training.

3.4. Materials: The Government will provide the necessary announcements to attendees and Standard Operating Procedures, and policies to support attendee course completion.

Annex A: Hazmat Training Course curriculum.

a. Hazmat Awareness Training 1 Day (8-hour class).

(1) All students completing the class will receive the PROBOARD certification certificate. Certificate copies must be submitted with the invoice.

(2) First responders at the awareness level shall have sufficient training or have sufficient experience to demonstrate competency in the following areas:

- An understanding of what hazardous substances are and the risks associated with them in an incident.
- The ability to recognize the presence of hazardous substances in an emergency.
- The ability to identify hazardous substances.
- Measure of performance- At the conclusion of Day 1 training, students will receive a written exam and must pass with a score of 80%. This exam will validate students have sufficient knowledge of hazardous response at the awareness level.

b. Hazmat Operations Training 3-Days (24-hour class).

(1) All students completing the class will receive the PROBOARD certification certificate. Certificate copies must be submitted with the invoice.

(2) First responders at the Operations level shall have sufficient training or have sufficient experience to demonstrate competency in the following areas:

- Knowledge of the basic hazard and risk assessment techniques.
- Know how to select and use proper personal protective equipment. A basic understating of hazardous material terms.
- Know how to perform basic control, containment and/or confinement operations within the capabilities of the resource and personal protective equipment. Know how to implement basic decontamination procedures.
- Measure of performance- At the conclusion of Day 3 training, students will receive a written exam and must pass with a score of 80%. This exam will validate students have sufficient knowledge of hazardous response at the Operations level. Additionally, students will receive a hands-on practical exam demonstrating their knowledge on containment, confinement and decon procedures.

c. Hazmat Technician Training 5-Days (40-hour class).

(1) All students completing the class will receive the PROBOARD certification certificate. Certificate copies must be submitted with the invoice.

(2) First responders at the Technician level shall have sufficient training or have sufficient experience to demonstrate competency in the following areas:

- Knowledge of the basic hazard and risk assessment techniques
- Know how to select and use proper personal protective equipment. A basic understating of hazardous material terms.
- Know how to perform basic control, containment and/or confinement operations within the capabilities of the resource and personal protective equipment.
- Know how to implement basic decontamination procedures.
- At the conclusion of Day 5 training, students will receive a written exam and must pass with a score of 80%. This exam will validate students have sufficient knowledge of hazardous response at the Technician level. Additionally, students will receive a hands-on practical exam demonstrating their knowledge on containment, confinement and decon procedures.
